ULTRAVIOLET GERMICIDAL LAMP SYSTEMS

Disinfect residential air with the Eliminator RPT™ Series of UV Germicidal Lamps Easy to install

The Eliminator RPT Series lamp irradiates cooling coils and air streams inside ductwork, so mold, bacteria and airborne pathogens such as viruses never have the chance to gather and disperse. The Eliminator RPT Series features exclusive, externally accessible, RPT high output lamps that plug directly into existing receptacles near your HVAC unit. These high output lamps provide **twice the output** of standard UVC lamps and are the easiest to replace in the industry .

Eliminator RPT Series Standard Features:

- 254nm UV-C energy to reduce, or eliminate, DNA-based airborne contaminants (bacteria, viruses, mold spores, yeast and protozoa)
- 12,000 hour lamp life (approximately 1.5 years)
- Ships complete with mounting bracket, hardware and instructions
- 120V operation with plug-in power pack
- High output UVC lamp
- 16" lamp length
- Patented RPT lamp design
- Easiest to replace lamps in industry (external access/no tools)
- 5-year warranty on ballast
